Total 12

3 Semester Total Credits

38.5

*All BIO classes must have been taken within 7 years of admission.

**May be taken before first semester of NUR courses.

***Elective: Arts & Humanities or Social & Behavioral Sciences

Students accepted into the nursing program must maintain a “C” or better in each required course (nursing and non-nursing). MAT 1120, BIO 2102 and BIO 2116 must be completed by the end of the first semester. If any of the co-requisite classes are not completed or successfully passed by the end of the 1st semester of the nursing program the student will not be allowed to progress to NUR 2006, NUR 2012 or NUR 2011. Failure to complete any of those courses successfully and/or within the allotted semester will result in the student not progressing with their cohort and being held out for the following semester, with the exclusion of the summer semester. These courses must be successfully completed as listed in the Associate Degree nursing curriculum in order to progress in the nursing program.
